TO WHOM IT MAY CONCERN

Dear Sir/Madam,

LETTER OF TESTIMONY: MR KGOMOTSO GULE

In order to contribute towards enhancing the effectiveness of government communication, Government Communication and Information System (GCIS) conducts communication research through private sector research companies on an ongoing basis. Given the specific competencies of companies and in order to provide different research companies with an opportunity to conduct work for government, the GCIS follows a tender or bidding process to appoint service providers.

The competency of the team/company as reflected in the research proposal is one of the most important aspects that we take into consideration when appointing a service provider.

In that light we would be comfortable to recommend the services of Mr Kgomotso Gule who we have worked with through Mthente Research and Consulting Services (Pty) Ltd; a company that was successfully appointed as a member of the GCIS panel of companies conducting qualitative research. We have experience of his skills and competence in focus group facilitation; and presentation of research reports from which we can indeed attest to his professionalism and work ethics.

Yours sincerely,

.....
Dr Ntombifuthi Nala

DIRECTOR: RESEARCH & KNOWLEDGE MANAGEMENT
